T. H. Butler of Hanna appeared before the Board at this time and strongly urged construction of a passable winter road connecting Hanna with the Lincoln Highway. The Board assured Co-Operation.

After discussion with Mr. Butler of the dangerous snow conditions obtaining in the district adjacent to the Town of Old Carbon the following resolution was duly passed:

WHEREAS, the present route of highway U. S. 30, between Medicine Bow and Ft. Steele In Carbon County, Wyoming, traverses an isolated section of said county peculiarly susceptible to heavy snow fall and drifting during the winter months, resulting in this portion of said highway being closed to use for considerable portions of each winter, and further resulting in death by freezing to one or more travellers each year, and

WHEREAS, it appears to said Board a much more feasible route for said highway lies along the north side of, and meanly parallel to, the Union Pacific Railway right-of-way between said points, which route is much less susceptible of snow fall and drifting, and the selection of which route would result in the saving of human life because of its proximity to said railroad, and would further result in the elimination of dangerous railroad crossings at Ft. Steele and Medicine Bow, now, therefore,

BE IT RESOLVED by said Board of County Commissioners, that said Board strongly favors the re-establishment and re-location of said highway along the said proposed route, and

BE IT FURTHER RESOLVED that this resolution be spread at large upon the minutes of the meeting of said Board, and that a copy thereof be submitted to the Wyoming State Highway Department.

A delegation of Stockmen appeared before the Board at this time urging a reduction of the assessed valuation on grazing lands in this County so that it would be comparable

with values on similar lands in other Counties of this State.

Inasmuch as the State Board of Equalization sets the values on these lands , while the Board assured the Stockmen that they would endeavor to get a reduction in these values, they questioned their own ability to obtain the reduction asked for, namely, fifty cents an acre.

The Board thereupon recessed to meet on Wed. February 8th at 10 O'clock A. M.

The Board resumed its session this 8th day of February A. D. 1928 at 10 O'clock A. M. with all Members present; I. K. Miller presiding.
