The City shall be provided with an option to lease the Project under the terms of the year to year lease agreement with the County upon being provided with notice that the County has given written notice that it is exercising its option to terminate its lease of the Project. All lease payments made by the Lessee under the terms of the lease agreement shall be timely made so as to permit the prompt payment of the principal of and interest on, and any prior redemption or other payment requirements due in connection with, the revenue bonds or other obligations to the Joint Powers Board.

## SECTION SIX

### OWNERSHIP OF THE FACILITY

Title to the project, and any improvements to be made thereto will remain with the Joint Powers Board and will not be set over or alienated in any manner while the bonds or any other obligations of the Board are outstanding.

June 5, 1979

The County pledges that, as soon as the revenue bonds of the Joint Powers Board are issued and delivered, it will enter into a lease of the Project under a year to year lease and further, that it will, during the initial term of the Lease or any extended term, furnish all necessary administrative, supervision, operational, accounting, legal or other services to complete the construction of said improvement; receive, verify and audit all claim vouchers for the expense incurred under the construction and engineering contract or contracts, and present such approved vouchers to the Joint Powers Board for its approval and payment.

SECTION SEVEN  
OPERATION AND MAINTENANCE

Under its lease of the Project from the Joint Powers Board, the County shall be designated by the Joint Powers Board to be solely responsible for the complete and full operation and maintenance of the Project during the initial lease term or any extensions or renewals thereof. The County shall fund all operating expenses unless the City exercises its option to lease the Project upon termination or non-renewal of the lease to the County, in which event the City shall fund all operating expenses.

SECTION EIGHT  
TERMINATION, DISSOLUTION AND DISTRIBUTION

The Board shall continue in existence until terminated by mutual agreement, as provided, above; provided, however, that the Joint Powers Board and this Agreement shall not be terminated, and shall continue in existence until all outstanding obligations of the Joint Powers Board, including all bond requirements of its revenue bonds shall have been fully paid and satisfied.

Further, upon termination and dissolution, and after satisfaction of all debts and obligations, the County and the City shall proportionately share by way of interest in the facilities, improvements or other property, in the ratio to which each party may have participated in the actual, total cost of the same. The parties may mutually agree at the time as to method of compensation or resolution between themselves.
